

STOCK PRICES RALLY; MARKET STRENGTHENS

Further Headway Made in
Early Dealings.

LONDON MARKET STRONGER

Violent Liquidation Ends and Advances
Extending Over One Point Scored.

Railroad Shares Firm.

NEW YORK, Nov. 11.—The rally in prices which was in progress at the close of business yesterday, made further headway in this morning's early dealings in the Stock Market.

Aside from the publication of the Government's crop report after the close of business yesterday, there was nothing new added to the situation, but the extremely favorable showing made therein cut some figure on account of the improvement in speculative sentiment.

It was the general opinion that by reason of yesterday's violent liquidation, the market structure had been materially strengthened and it was believed that the most urgent liquidation had now been completed.

The London market for American stocks was decidedly strong and animated, many advances extending to one point being scored. In the local dealings initial advances ranging from half to one point were common throughout the list.

Active features of the dealings were St. Paul, the Pacific Stocks, Reading, Erie and Manhattan Railway, Sugar Refining, and the Steel Stocks were firm on fairly large dealings and Copper and the other miscellaneous issues moved in line with the general market.

GRAND JURY INDICTS HUSBAND OF NINE WIVES

Jones Confronted by Three
of His Spouses.

ERIN, Tenn., Nov. 11.—Arch Jones,

who was indicted last week on the charge of bigamy, is said to have nine wives scattered through Ohio, Indiana, Kentucky, and Tennessee.

Three of his alleged wives appeared before the grand jury last week—the one who lives in this county, and whose maiden name was Ross; one from Green Brier, Robertson county, who was formerly a Miss Carter, and one from Kentucky, whose name was Hayes, prior to her marriage to Jones.

Jones married Miss Ross about four years ago but left her. He returned to this county a few weeks ago for the purpose, as his wife thought, of stealing away her year-old child.

This led her to look into Jones' actions, which brought about his indictment and arrest. Jones is now in jail.

READING DENIES CHARGES OF UNITED MINE WORKERS

(Continued From First Page.)

and behave as law-abiding people should, but the company will at all times employ any person it sees fit, and will not permit any labor organization to limit the right of employment to the members of its organization.

Workmen Have Many Advantages. "This company avers that there is not anywhere else in the world a mining region where the workmen have so many comforts, facilities for education, general advantages and such profitable employment.

"This company denies that the second demand, 'for a reduction of 20 per cent in hours of labor without any reduction of earnings for all employees by the hour, day or week,' is either just or equitable. This company admits that the tendency of national and State governments and of labor organizations is toward shorter hours, but denies that a working day of less than ten hours will be of real advantage to the workmen engaged in and about the anthracite mines and collieries.

"Any increase in wages will necessarily increase the price of coal to the public, restrict its use and seriously affect the ability of the industries using it as fuel to compete with the industries using bituminous coal.

Measurement of Coal Fair.

"This company, replying to the third demand, says that it has no disagreement with any of its employees about the weighing of coal. The quantity is usually determined by measurement. There is nothing unreasonable or unfair in the method it has practiced in arriving at the measurement of the coal from its mines.

"This company, replying to the fourth demand, says that the United Mine Workers of America are primarily a bituminous coal organization; that bituminous coal is a rival competitor in the market with anthracite coal; that ever since the advent of the United Mine Workers of America in the anthracite field the business conditions in the anthracite mines have become intolerable, the output of the mines has decreased, discipline has been destroyed, strikes have been of almost daily occurrence, men worked when and as they pleased, and the cost of mining has been greatly increased."
